

# STORK

## Remote System

### for Teledyne RDI RiverPro/RiverRay ADCP Trimaran

After a successful launch of the Stork Remote System for StreamPro ADCP in 2022 we now offer you a dedicated package for TRDI RiverPro/RiverRay ADCP Trimaran. With no mechanical changes to original float, you can now turn the trimaran into USV within few minutes.

Improve your discharge survey with easy to operate and low-cost remote-controlled drone. Robust and field proven construction will increase your safety on water and save your survey time.
